Summary

Highly motivated MCA student specializing in **AI/ML** with a strong technical foundation in **Full-Stack Development**. Experienced in building responsive web applications using the **MERN stack** and implementing **Computer Vision** solutions. Proven track record of developing end-to-end projects ranging from property rental platforms to AI-powered fraud detection systems.

Projects

- StayEase: A Full-Stack Property Rental & Booking Platform**

A full-stack property listing platform built with Node.js, Express, MongoDB, and EJS. Features include user authentication (signup/login with bcrypt password hashing), role-based access (Guest/Host), property management (add/edit/delete listings), favorites system, and session management using MongoDB store. Implemented server-side form validation using express-validator with custom validation rules for email, password strength, and input sanitization, along with responsive UI using Tailwind CSS.

- Full-Stack MERN Todo Application**

A full-stack task management application built with the MERN stack (MongoDB, Express.js, React, Node.js). The app features a responsive UI using CSS and JavaScript, enabling users to create, read, update, and delete tasks. This project demonstrates practical implementation of RESTful API design, frontend-backend integration, and basic database operations with MongoDB.

- Face Mask Detection via webcam**

Developed an ML model to automatically detect whether individuals are wearing face masks in real-time.
Tech Stack: Python, TensorFlow/Keras, VGG16, OpenCV, NumPy, Matplotlib

Education

• MCA(AI ML) From Chandigarh University	72.7 Percent	(2024-2026)
• BSc (Hons. IT) From Pt. Chiranji Lal College (KUK)	63 Percent	(2021-2024)
• Intermediate CBSE From Kendriya Vidyalaya Karnal	74 Percent	(2019-2020)
• Matriculation CBSE From Kendriya Vidyalaya Kapurthala	74 Percent	(2017-2018)

Skills

- **Languages:** Java (OOPs), Python, JavaScript
- **Web Development:** Node.Js, Express.Js, React.Js, EJS Templating , Git , GitHub
- **Databases:** MongoDB, MySQL.

Certificates

- React.Js (Infosys Springboard) (Feb 22, 2025)
- Node.Js(Infosys Springboard) (Oct 25, 2025)
